Contents

1 Introduction 1
- 1.1 Welcome to ggplot2 1
- 1.2 Other resources 2
- 1.3 What is the grammar of graphics? 3
- 1.4 How does `ggplot2` fit in with other R graphics? 4
- 1.5 About this book 5
- 1.6 Installation 6
- 1.7 Acknowledgements 6

2 Getting started with qplot 9
- 2.1 Introduction 9
- 2.2 Datasets 10
- 2.3 Basic use 11
- 2.4 Colour, size, shape and other aesthetic attributes 12
- 2.5 Plot geoms 13
  - 2.5.1 Adding a smoother to a plot 14
  - 2.5.2 Boxplots and jittered points 16
  - 2.5.3 Histogram and density plots 18
  - 2.5.4 Bar charts 20
  - 2.5.5 Time series with line and path plots 20
- 2.6 Faceting 22
- 2.7 Other options 23
- 2.8 Differences from plot 26

3 Mastering the grammar 27
- 3.1 Introduction 27
- 3.2 Fuel economy data 28
- 3.3 Building a scatterplot 29
- 3.4 A more complex plot 34
- 3.5 Components of the layered grammar 35
  - 3.5.1 Layers 37
  - 3.5.2 Scales 37
  - 3.5.3 Coordinate system 38
  - 3.5.4 Faceting 38

3.6 Data structures ... 39

4 Build a plot layer by layer ... 41
4.1 Introduction ... 41
4.2 Creating a plot ... 42
4.3 Layers ... 42
4.4 Data ... 45
4.5 Aesthetic mappings ... 46
4.5.1 Plots and layers ... 46
4.5.2 Setting vs. mapping ... 47
4.5.3 Grouping ... 49
4.5.4 Matching aesthetics to graphic objects ... 52
4.6 Geoms ... 55
4.7 Stat ... 55
4.8 Position adjustments ... 59
4.9 Pulling it all together ... 59
4.9.1 Combining geoms and stats ... 60
4.9.2 Displaying precomputed statistics ... 62
4.9.3 Varying aesthetics and data ... 62

5 Toolbox ... 65
5.1 Introduction ... 65
5.2 Overall layering strategy ... 66
5.3 Basic plot types ... 66
5.4 Displaying distributions ... 68
5.5 Dealing with overplotting ... 72
5.6 Surface plots ... 77
5.7 Drawing maps ... 77
5.8 Revealing uncertainty ... 80
5.9 Statistical summaries ... 81
5.9.1 Individual summary functions ... 84
5.9.2 Single summary function ... 84
5.10 Annotating a plot ... 85
5.11 Weighted data ... 88

6 Scales, axes and legends ... 91
6.1 Introduction ... 91
6.2 How scales work ... 92
6.3 Usage ... 93
6.4 Scale details ... 96
6.4.1 Common arguments ... 96
6.4.2 Position scales ... 98
6.4.3 Colour ... 102
6.4.4 The manual discrete scale ... 107
6.4.5 The identity scale ... 109

6.5 Legends and axes . . . 110
6.6 More resources . . . 112

7 Positioning . . . 115
7.1 Introduction . . . 115
7.2 Faceting . . . 115
7.2.1 Facet grid . . . 116
7.2.2 Facet wrap . . . 120
7.2.3 Controlling scales . . . 121
7.2.4 Missing faceting variables . . . 123
7.2.5 Grouping vs. faceting . . . 123
7.2.6 Dodging vs. faceting . . . 125
7.2.7 Continuous variables . . . 129
7.3 Coordinate systems . . . 129
7.3.1 Transformation . . . 130
7.3.2 Statistics . . . 133
7.3.3 Cartesian coordinate systems . . . 133
7.3.4 Non-Cartesian coordinate systems . . . 136

8 Polishing your plots for publication . . . 139
8.1 Themes . . . 139
8.1.1 Built-in themes . . . 140
8.1.2 Theme elements and element functions . . . 142
8.2 Customising scales and geoms . . . 147
8.2.1 Scales . . . 147
8.2.2 Geoms and stats . . . 148
8.3 Saving your output . . . 148
8.4 Multiple plots on the same page . . . 151
8.4.1 Subplots . . . 152
8.4.2 Rectangular grids . . . 153

9 Manipulating data . . . 157
9.1 An introduction to plyr . . . 157
9.1.1 Fitting multiple models . . . 161
9.2 Converting data from wide to long . . . 164
9.2.1 Multiple time series . . . 164
9.2.2 Parallel coordinates plot . . . 167
9.3 `ggplot()` methods . . . 169
9.3.1 Linear models . . . 170
9.3.2 Writing your own . . . 173

10 Reducing duplication . . . 177
10.1 Introduction . . . 177
10.2 Iteration . . . 177
10.3 Plot templates . . . 178

10.4 Plot functions . . . 181

Appendices

A Translating between different syntaxes . . . 185
A.1 Introduction . . . 185
A.2 Translating between qplot and ggplot . . . 185
A.2.1 Aesthetics . . . 185
A.2.2 Layers . . . 186
A.2.3 Scales and axes . . . 186
A.2.4 Plot options . . . 187
A.3 Base graphics . . . 187
A.3.1 High-level plotting commands . . . 187
A.3.2 Low-level drawing . . . 189
A.3.3 Legends, axes and grid lines . . . 190
A.3.4 Colour palettes . . . 190
A.3.5 Graphical parameters . . . 190
A.4 Lattice graphics . . . 190
A.5 GPL . . . 192

B Aesthetic specifications . . . 195
B.1 Colour . . . 195
B.2 Line type . . . 195
B.3 Shape . . . 196
B.4 Size . . . 196
B.5 Justification . . . 196

C Manipulating plot rendering with `grid` . . . 199
C.1 Introduction . . . 199
C.2 Plot viewports . . . 199
C.3 Plot grobs . . . 201
C.4 Saving your work . . . 201
